

Events Highlight

# The Merano Wine Festival, 10–14 november 2017

di: Redazione

1 november 2017

The banner features a central graphic of a wine glass filled with red wine, with a gold fork and a gold chalice (the festival's logo) inside it. To the left, there are three circular award logos: 'Platinum', 'Gold', and 'Rosso', all from the 'Merano Awards'. Above them is the 'The Wine Hunter' logo, which depicts a stylized eye. To the right, the text reads 'Merano WineFestival since 1992' and 'THE INTERNATIONAL WINE & FOOD EXCELLENCE'. Below this, the dates '10-14 november 2017', the location 'Merano, Alto Adige - Südtirol', and the website 'meranowinefestival.com' are listed.

The **Merano Wine Festival** is the first event in Europe which, since 1992, solely focuses on the selection of top quality products in an exclusive ambience. Its multi-sensory journey in just one Glass, has become a milestone in this type of festivals.

The Merano WineFestival is more than just an event, it is an outright think tank. It provides a platform for exchange between producers, opinion leaders, professionals and consumers. A proper benchmark for high quality and a reference for a selective purchase.

The visibility and notoriety of the Merano WineFestival reaches a global level and represents a brand of top-quality. Every selected company is part of the wine-world's gotha.

To celebrate 26 years of history, there will be 5 days full of emotions and things to discover with friends: over 450 winemakers among the best of Italy and the rest of the world, almost 200 producers of culinary products and 15 prominent chefs. Expression of the best that our place has to offer, selected by the **WineHunter Award Commissions**.

**Cooking Farm** is the highlight of the new **Chef Arena**, where famous Italian chefs and master chefs will challenge the most traditional South Tyrolean countrywomen in the realization of traditional and innovational plates.

Meanwhile, the **Masterclasses** will represent a variety of guided tastings of excellent national and international wines with the purpose to create culture and knowledge.

Another fast-growing sector of the last years will be one of the protagonists: during the **Naturae and Purae**, the best biological, byodynamic, natural, "orange" and PIWI wines (Disease-resistant wine varieties) will be presented on the opening day.

As the highlight of the Merano WineFestival's Grand Final, we will proudly present **Catwalk Champagne**, a display of over 250 champagnes by 80 french producers!
